TRAINING DVD – “WALK THE LINE”

We are pleased to inform that a DVD on the complete mechanics of bowls has been produced by the National Academy. It is available as a resource to any Bowler seeking assistance in the improvement of their game and as an additional teaching aid for our coaches.

The viewer can select the language of his choice as the DVD has an option in English, Afrikaans and Sign Language. The production covers every aspect of bowls from the objective of the game to the fundamental principles of developing a smooth and accurate delivery. Common faults are explained and a practice programme for beginners has also been included. The latest technology has been used to explain various concepts using graphics.

The DVD is available from the office of Bowls SA at R 50.00 and Districts are requested to assist in the marketing. Orders for the DVD from clubs and individuals should be directed through Districts. It is our belief that this initiative will improve the standard of bowls across South Africa.

John Ravenscroft
Operations Manager

Executive Committee:

President: Piet Breitenbach, *Vice President:* Debra Ferguson
