## LOCAL BUSINESSES DECLARE WAR!

In the coming weeks the greens at your local Bowling Club will resemble a battlefield as teams face off against each other to decide once and for all who the “Kings and Queens of the Greens” are!

Proving that bowls is not for sissies or old men dressed in white, your Bowling Club challenges all businesses, schools and organisations in town to enter a mixed ladies and men’s team willing to go to war for their team’s honour. Teams are encouraged to design their own uniforms and wear their brand on their chests as they put their best bare foot forward and get those bowls rolling! To ensure that the fight is fair, a pre-game crash course is available to all teams. Bowls are also available at the club for the teams to ensure that they are adequately armed.

Suitable refreshments and sustenance will be available before, during and after all games to ensure that all warriors’ throats are kept lubricated and their energy levels kept high.

If your organisation has what it takes to field a team of four willing warriors, then contact your local Bowling Club to sign up - but hurry, only a limited number of teams can be accommodated!
