

Printing Instructions

- 1 Each of the assessment sheets has 6 sheets to accommodate 12 players
NOTE: if you have 12 players, use the (per RINK) score sheets to provide automatic collation for the clipboards
- 2 Should your group be smaller, only print the number sheets you need - one sheet per rink (2 players)
- 3 Use the colours, headings and lengths (drawing protocols) to keep track per round and per length / type for administration purposes
- 4 Make sure that you enter the scores in the appropriate column (length columns for drawing protocols & type columns for attack protocol)
