CIRCULAR 59/2016

NATIONAL TALENT DEVELOPMENT STRUCTURE

This circular letter should be read in conjunction with Circular 16/2016 of 25 February 2016 and the power point presentation at the recent workshop.

The foundation for the new talent development programme is the appointment of DISTRICT TALENT DEVELOPERS to manage and control the progress of talented players over a period of time.

A number of our Protea and district players with the necessary attributes have already indicated their willingness to assist with the implementation of this project and the attached schedule is forwarded for your approval and final commitment to this scheme.

The Talent Developers will work closely with the district selectors and district coaches committees. Close liaison between the national and district selectors will ensure that players with the potential for higher honours will be involved on a regular basis. Members of the local coaches committees will be required to assist with the practical application of the exercises. Talent Developers are expected to submit a one-off set of results of the various exercises every two months to the zone coordinators for transmission to the national selectors and head coach.

It will be noted that some vacancies for skills developers still exist at certain districts. The ideal situation is that both genders should be involved and districts concerned are kindly requested to assist in identifying suitable players.

Once all districts are committed to this project, arrangements will be made by the Head Coach to visit each zone for introducing the high performance programme and at the same time to involve the convenors of district selection committees on the way forward.

This project will replace the zone camps and will ensure that the progress of talented players are monitored and developed on a regular basis. For the programme to succeed and deliver the full benefits, it is essential that all districts embrace the programme. The high performance programme is designed to improve motor, physical and psychological skills which will benefit all players to become a more accomplished player.

Districts are requested to indicate their acceptance of the talent developers thus far identified and their full commitment to the project by 01 November 2016.

Your Co-operation in the successful and ongoing commitment to this new programme is appreciated.

**KALLIE HAUPT
PRESIDENT**

Executive Committee:

President: Kallie Haupt, Vice President: Rob Forbes

Members: Heather Boucher, Trevor Davis, Fred Krus & Charles Levy
