Play shall stop immediately and only resume when authorised by the CTO. Only the Controlling Body in conjunction with Bowls SA Executive duty member may abandon play and shall have the right to curtail the number of rounds/ends to be played to achieve a result. Once the appeal is accepted all players need to vacate the green.

The CTO should be guided by applying suspension of play once the discomfort index exceeds 36 degrees in Temperature and 39 % in Humidity. Should the heat index reach the level for 'Great Discomfort', a compulsory 10-minute break must be taken by all players after 10 ends. Play must be suspended if the heat index reaches the extreme danger zone until such time the temperature decreases, or a decision of abandonment is made.

The CTO shall assess the proximity of the lightning strikes by using a lightning meter. There must be Lightning detectors available at the Clubs in districts where Lightning is prevalent. The lightning strike must be clear for 20 min in the 15 km radius before they can go back on the greens. Any ends not completed will be replayed. Lightning Meters which reflect a distance of less than 15km will initiate a temporary evacuation of the green.

Where games are played at a Country Club the greens must be evacuated when the siren is sounded.

In the event of adverse weather conditions or any other reason causing a temporary disruption in play during a playing session, the CTO shall decide when play should be stopped and resumed.

- 25.2 Upon any subsequent offence by the same player, the Technical Official shall report the player to the Controlling Body, who shall take suitable action, which may include suspending the player from playing the next round. The attitude of the player and the circumstances will contribute to any decision taken by the Controlling Body.
- 25.3 If the offence is committed in the last round, the penalty will be carried forward to the relevant tournament for the following year.
