CIRCULAR 100 - 2026

BOWLS SOUTH AFRICA™: APPROVAL - USE OF KSR LASER MEASURE

1. In accordance with Law 54.9 of the Laws of the Sport of Bowls, the Bowls South Africa™ Executive Committee has approved the KSR Laser Measure for use in South Africa as an alternative to the box measure.
2. The KSR Laser Measure does not form part of the umpire's kit listed on pages 122 and 123 of The Laws of the Sport of Bowls; however, it may be used as an alternative measuring device, subject to the provisions of this circular.
3. A marker may not, under any circumstances, use the KSR Laser Measure when marking a singles game. The only measuring device that a marker is permitted to use is a string measure, such as a box measure or bullet measure.
4. Players may use the KSR Laser Measure during tabs-in games, club competitions and district competitions.
5. This approval does not constitute, and must not be construed as, an endorsement of the equipment, a commercial endorsement, and/or any assumption of responsibility by Bowls South Africa™ in respect of:
 - a. any product warranty, which remains solely the responsibility of the manufacturer;
 - b. any representation or claim made by the manufacturer, including, without limitation, claims relating to the accuracy or ease of use of the equipment.

6. Any issue or dispute relating to patents, intellectual property rights or other proprietary rights remains the sole responsibility of the manufacturer.
7. Bowls South Africa™ further confirms that, as with the previously approved Impulse Laser Measure and Paulie-Dot Laser Measure, neither Bowls South Africa™ nor its Executive Committee has, or derives, any commercial interest or benefit from the approval of the equipment for use.
8. Bowls South Africa™ further informs all members that they are to contact the manufacturer with regards to any enquiry pertaining to the purchase of the approved equipment:
